

CITIZENSHIP AND CIVIL RIGHTS

Erasmus+

Wheel chair route

As one of the tasks we were supposed to move around Sant Jordi in a wheelchair and experience the difficulties that disabled people are likely to encounter doing their regular activities.
Here are the results...

Gym Nirvana

The disabled have a possibility to work out at the gym, however, there is no elevator there - the stairs are the only way to enter. It makes the gym not accessible for the disabled.

Virgen de las Nieves school

The situation from the gym repeated at the school. The area is quite large for the people in wheelchairs to move around, however, there is no other alternative for them than the stairs.

Negative aspects

We also encountered many difficulties while walking on the sidewalk and crossing the streets.

Positive aspects

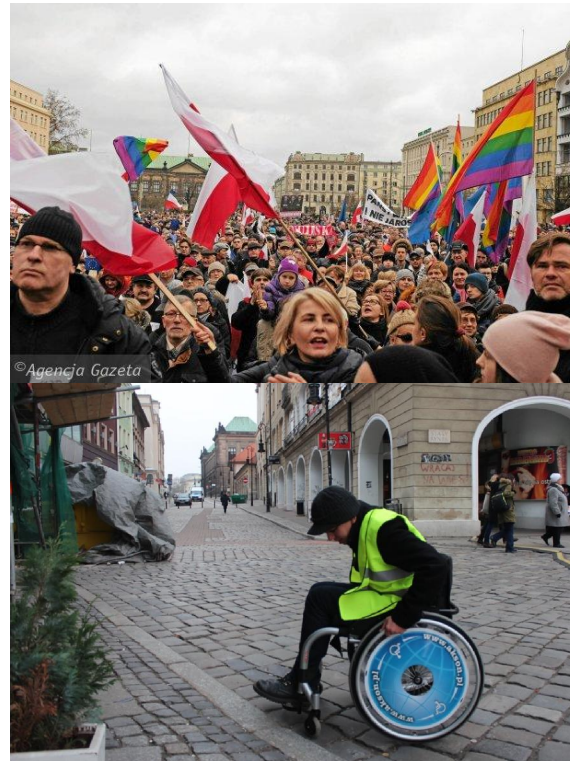

Despite many difficulties the city also has many positive elements which facilitate the disabled. Special toilets or parking spots were wider and accessible in an easier way.

POSITIVE

- ❖ Lower floors and separate spaces for wheelchairs on public transport.
- ❖ Sound signalization at the traffic lights.
- ❖ Parking places for the disabled.
- ❖ Free health care and education.
- ❖ Socially active.
- ❖ Discounts at public facilities for the disabled.
- ❖ Various public fundraisers.
- ❖ Right to protest and express opinion publically.
- ❖ Separate toilets for the disabled.

POLAND

NEGATIVE

- ❖ Illegal gay marriage, abortion, euthanasia.
- ❖ Not enough spots for the disabled eg. at the cinema or certain supermarkets
- ❖ Often there are no ramps or elevators at public places eg. banks, libraries.
- ❖ Parking spots for the disabled are often disrespected and occupied by people without disabilities.
- ❖ Many schools are not prepared for disabled students.
